Letter to DECT Forum Members

Invitation 3rd CAT-iq Plugtests Event Munich 2011

We are pleased to announce that, following on from the success of the past events, **DECT Forum**, together with **Dosch & Amand** and **ETSI**, are organizing a **3rd CAT-iq Plugtests event**.

This interop event will be held in the **Dosch & Amand training Center in Munich, Germany** and will take place from **28-30 September 2011**.

The scope of the event has been discussed and the tests will most likely concentrate on the issues found during the 2nd event, verifying that these issues have been resolved and ensuring that the products are now ready for the mass market. Features, which were optional in CAT-iq 2.0 but are mandatory in CAT-iq 2.1, may also be tested if there are implementations ready.

I would appreciate if you could let me know whether or not you are interested in attending this event so that the arrangements may be finalized

For full details and to help us optimize the event preparation, please visit and register at the following link: www.etsi.org/plugtests/CATIQ3/CATIQ.htm

Registration will close on **15th June 2011**. This invitation is open to any company that has a CAT-iq 2.0 product to bring to market, so please feel free to forward to interested parties. If you need any further information please do not hesitate to contact the team via email at: plugtests@etsi.org or the DECT Forum Secretariat.

Kind regards,

Roland Schmidt
