DECT Forum: Surge in CAT-iq 2.0/HD Voice Product Certification

Bern, September 1, 2016. The DECT Forum, the international association of the wireless home and enterprise communication industry, is pleased to announce a steady rise in the numbers of new devices which have successfully passed the CAT-iq certification program.

The DECT Forum has issued new certificates for handsets and gateways (routers) from the following full member companies:

- **Arcadyan**, Speedport 724V Type B
- **CIG**, Fios-G2100 Router
- **Gigaset**, Handsets E560HX and CL660HX
- **Huawei**, Speedport W724V Type A
- **Panasonic**, Handset KX-TGQ200
- **RTX**, Handsets 8242 and 8262
- **Sagemcom**, F@ST 5355 Router
- **SGW**, Handset Motorola CD1HD
- **VTech**, Speedphone 11

An overview of more than 60 certified CAT-iq products are listed here: www.dect.org/cat-iq-certification.aspx

“The DECT Forum initiative for CAT-iq 2.0 technology offers key benefits such as HD voice, multiple line handling and a host of other features”, says Daniel Hartnett, Business Development Director of the DECT Forum. “Interoperability between different manufacturers is guaranteed when used on CAT-iq certified handsets and gateways. This technology has been strongly embraced by the industry, with further adoption by additional service providers, resulting in the increase in certification numbers and available products.”

DECT Forum showcases a large selection of CAT-iq gateways and handsets from various manufacturers at the BBWF 2016 (September 18-20). Please visit our booth C70 (ExCel, London). You can find us here: www.dect.org, Twitter: @DECT_Forum
